Motivated Computer Engineering student with strong CS fundamentals and hands-on experience in web development and DevOps. Passionate about building scalable, high-performance applications with a strong focus on usability and real-world impact. Seeking to apply my skills and knowledge in a challenging and growth-oriented environment.

EDUCATION

HSC (CBSE)

BE IN COMPUTER ENGINEERING (2022-Present) CGPA:8.64

Dr D.Y.Patil Institute of Engineering Management and Research, Pune, India

(2021-2022)

Takshila School Ahmednagar, India

Percentage: 82.4%

SSC (CBSE)

(2019-2020)

Army Public School Ahmednagar, India Percentage: 79.2%

WORK EXPERIENCE

Intern Software Engineer (Dec 2024 - Jan 2025)

Scalefull Technologies, Pune

- Assisted in setting up CI/CD pipelines using Jenkins and GitHub for automating code deployment.
- Worked with Docker to containerize applications and managed containers using Kubernetes.
- Managed source code and branching strategy using Git and GitHub.
- Gained experience in working with cloud platforms such as AWS, and Azure.

SKILLS

- Programming Languages: Java, HTML5, CSS3, JavaScript, SQL.
- Libraries/Frameworks: React.js, Tailwind CSS.
- Database: MySQL, MongoDB.
- Tools & Platforms: Git, GitHub, Jenkins, Docker, Jupyter Notebook.
- CS Fundamentals: OOPs Concepts, Data Structures & Algorithms, Database Design.
- Soft Skills: Creative design thinking, Team collaboration & Agile understanding.

PROJECTS

Netflix Clone Web Application

- Built a responsive Netflix-like web app using React.js and Firebase, with TMDB API integration.
- Implemented Firebase Authentication for secure login/signup and Firestore for real-time data.
- Deployed the project using Firebase Hosting; ensured mobile responsiveness.

Personal Portfolio Website

- Designed and deployed a personal portfolio using HTML, CSS, and JavaScript.
- Showcased projects with interactive UI and mobile-first responsive design.
- Implemented smooth navigation, contact form, and optimized for SEO and performance using best web practices.

CI/CD Pipeline for Static Website Deployment

- Created a fully automated CI/CD pipeline to deploy a static website using Jenkins.
- Configured Jenkins to pull code from GitHub, run build steps, and deploy updates automatically.
- Demonstrated build/test/deploy process for real-world web apps with logging and error handling.

CERTIFICATIONS

- Web Development Certificate By Acmegrade | July 2024
- Data Analytics Certificate By Simplilearn | April 2025
- JAVA Fundamentals Course By Tirupati Engineering | June 2023
- Power BI Certificate By Simplilearn | July 2025
- Cloud Computing (Devops & AWS) Certificate By Wisdom Sprouts | February 2025
